BIOGRAPHY

ESTD. 2020

Some people think beauty, like perfection, means staying the same. We believe beauty is what changes. We create harmonious blends of active oils that give your skin the power to change: to alter the narrative, to add a chapter, or to revise history for the better. To us, beauty isn't a single moment or frozen image, but an evolving story—something that unfolds itself over time.

Beauty lives in essential intimacy with nature; one aspect of a larger whole. Biography is beauty that embraces your context, partnering with your skin to find balance, power, and character.

BIOGRAPHY

To us, beauty is written in oil.

We compose original stories with the elements nature gave us, creating finely crafted oil blends with nourishing moisturizers and skin-changing actives. Each of our oils was over ten years in the making, continuously refined with ever higher-performing actives at skin-friendly yet effective levels. From countless tested blends, we chose only four. Our standard is absolute and uncompromising—otherwise, why even bother?

Defensive in some company, yet yielding in others, this protective blend of borage, radish, and pumpkin seed oil softens skin, conditions hair, and shields both from the barber effects of the blade, like sandy bumps or burn. Now the advantage is squarely yours.

BIOGRAPHYNYC.COM

No longer are you doomed to repeat past skin mistakes—here is the epiphany of forgiveness. Let go of ancient history, fine lines, and cutting remarks with this deeply renewing and corrective oil, and usher in your own era of the Grand Skin Restoration.

Beauty is within. And without.

Biography oils are composed of only the finest natural ingredients, with actives featuring in operative roles—here for effect, not for show. Every element has been sustainably sourced, harvested, rendered, and presented now to you, destined for your skin, and then the recycling bin to begin again. Biography gladly does without: cruelty, parabens, fillers, mineral oil, unfulfilled promises, preservatives, alcohol, or artificial pretension.

Welcome the eternal good skin day.

Drop on for increased elasticity, plumped-up suppleness, blurred fine lines, and a sunlit sheen.

GOLDEN RAY

GLOW DROPS

The promise of dawn, the glory of sunset, and the entire spectrum of light and life in between—all in a single incandescent blend. Specialized hydrators form a liquid shield over skin, sealing in moisture below and radiating out a softly reflective glow from within. Free radicals are defeated, and your skin becomes its own source of power, energy, and light.

Our golden-child of an oil features our most precious active of all: French Marine Algae—a powerful skin re-builder that works deep to stimulate collagen formation, restoring youthful bounce and smoothness.

BIO

This deeply moisturizing dry oil absorbs on contact, creating a primed surface for makeup or sunscreen. Redness clears; serenity reigns.

LONG JUNE

EVERYDAY DROPS

Like a quiet rain, this oil blesses where it falls. Our gentlest oil is fit for serene mornings and sensitive skin, preparing a way for sustained calm and regeneration. Oils of lavender, chamomile, and calendula infuse skin with harmonious balance, an accord of newly-made peace. Skin is hydrated and soothed for the day stretching ahead, preparing you to meet an extended prime.

Chamomile, lavender, and evening primrose bring quiet symmetry on the cellular level, turning down redness and enhancing brightness for a face made fresher every morning.

Calm is the absence of fear, not the absence of change.

FEW WORDS

SHAVE DROPS

Hair and skin: natural companions, frequently parted. And that parting must be amicable if there are to be happy returns. This is a conditioning agent for both parties upon their separation: camellia and borage seed oils softening hair in the root, ready for a clean sweep, shielding skin from too losing too much in the shave. Reunions are free of angst, bumps, irritation, and razor burn. Because hair will always return to skin, our oil welcomes it back, then sends it on its way once again.

For skin: protective moisture from camellia, pumpkin seed, and borage oils.

For hair: softening and conditioning from daikon radish oil with aloe to ease the blade.
